Streamline TVL 2

The Alternative Solvent Inkjet Inks from Sun Chemical Color matched and mixable with Roland TrueVIS TR2 inks

Streamline TVL 2 is an eco-solvent inkjet ink series formulated to match the color, performance and quality of Roland TrueVIS TR2 inks used with Roland SG2 and VG2 series eco-solvent machines. TVL 2 is fully intermixable with TrueVIS TR2 enabling the printer to utilize the existing original color profiles. Simply insert our TVL 2 pouches into the printer and continue to enjoy uncompromised quality with greater economy!

TVL 2 features a full color range and is available in pre-filled, degassed 500ml pouches to fit directly into the Roland SG2 and VG2 series printers.

TVL 2 matches Roland TrueVIS TR2 ink series to enable same-day installation of prints, which can be laminated and finished within 6 hours to maximize productivity.

Streamline TVL 2 Key features:

- HPQ LO low odor ink chemistry
- CMYK, LC, LM, LK color ink set
- Degassed for optimum performance at high print speeds
- Improved print resolution
- Improved chemical resistance, ideal for car wrap applications
- UL Greenguard Gold certified ensuring low indoor air emissions
- Free of GBL Solvent (Gamma-butyrolactone)
- High productivity: Lamination and finishing within 6 hours of printing

Using non-original inks?

If you're not getting the best quality or reliability from your current non-original inks, converting to Streamline inks will restore your machine to the original color values and performance. A Sun Chemical approved engineer will make the change for you.
